Assigned Division:	
Brief Description of Issue:	I was taking a walk around the park on Woodside Street and noticed a house head several hundreds of bees swarming around the front of the household. Is this safe? I know a lot of people are allergic to bees and I don't want to see anybody get hurt.

Assigned Division:	
Brief Description of Issue:	I was walking my dog past 120 Woodside St. and there was a lady out front carrying a box of bees. There are hundreds of bees swarming the outside of her house and when I walked by, they started swarming myself and my dog. Is this safe and allowed? I'm just concerned for the safety of people who have to walk by
