

Lemoyne Municipal Authority – Summary Report to Council

October 14, 2025

General:

I reported that budget meetings for Sewer, Sewer Capital Reserve and Stormwater would be held the following evening and invited the members to attend. I summarized the proposed budgets to be reviewed by council.

Operator's Report:

An affidavit was prepared and submitted to PennDOT related to the age and status of the sewer pipe under I-83 to be impacted by the I-83 Bridge Project.

Engineer's activities for the previous month:

Meetings continue with the I-83 project and involve coordination with final design. The Authority will need to decide whether to have PennDOT include sewer relocation with the bridge contract or to put out a separate contract under the Authority. The Water Quality Management permit for the grit system will be available for review by the Authority shortly, with possible approval for submission in November.

Treasurer's Report:

Invoices for the month totaled \$70,888 and included purchase of the two new utility pumps.

Bank balance at the end of the prior month (rounded) - \$1,839,000.

Debt balance (rounded) - \$10,612,000.

Solicitor's Report:

None

New Business:

None

Old Business:

None
